Chris Hadfield

Astronaut | Former Commander of the International Space Station

“Good morning, Earth!” That is how Colonel Chris Hadfield – writing on Twitter – woke up the world every day while living for five months aboard the International Space Station. Through his 21-years as an astronaut and three spaceflights, Colonel Hadfield has become a worldwide sensation, harnessing the power of social media to make outer space accessible to millions and infusing a sense of wonder into our collective consciousness not felt since humans first walked on the moon. Called “the most famous astronaut since Neil Armstrong,” Colonel Hadfield continues to bring the marvels of science and space travel to everyone he encounters.

Colonel Hadfield is a pioneer of many historic “firsts.” In 1992, he was selected by the Canadian Space Agency as a NASA Mission Specialist – Canada’s first fully-qualified Space Shuttle crew member. Three years later, aboard Shuttle Atlantis, he was the first Canadian to operate the Canadarm in space, and the first Canadian to board a Russian spacecraft as he helped build space station “Mir.” In 2001, aboard Shuttle Endeavour, Colonel Hadfield performed two spacewalks – the first Canadian to do so – and in 2013, he was Commander of the International Space Station – the first and only Canadian to ever command a spaceship.

A heavily decorated astronaut, engineer, and pilot, Colonel Hadfield’s many awards include receiving the Order of Ontario, the Meritorious Service Cross, and the NASA Exceptional Service Medal. He was named the Top Test Pilot in both the US Air Force and the US Navy, and has been inducted into Canada’s Aviation Hall of Fame.

Colonel Hadfield is the author of the internationally bestselling book *An Astronaut’s Guide to Life on Earth*, and has been commemorated on Canadian postage stamps, Royal Canadian Mint silver and gold coins, and on Canada’s newest five dollar bill (along with fellow astronauts Steve MacLean and Dave Williams). ■

Johanna Wagstaffe is an on-camera meteorologist for CBC covering local, national and international weather and science stories. She joined the CBC News: Weather Centre in the summer of 2007 working on the CBC News Network morning shows.

Johanna is now in Vancouver and her forecasts can be seen daily, on CBC News Vancouver at 5, 5:30, 6 pm, as well as part of the brand new CBC News Now team, presenting the latest weather & science stories with Ian Hanomansing at 5, 7, 10 pm PT across the country.

With Wagstaffe’s background in seismology and earth science, she is often utilized by CBC as the go-to expert for insight into breaking science stories. Some of the stories she has covered recently include the Copenhagen Climate Conference, the 2011 Japan earthquake and tsunami, and flying with the Snowbirds.

Johanna Wagstaffe graduated with an honours degree in geophysics from The University of Western Ontario. She was first exposed to weather forecasting as a summer

intern at the Environment Canada Severe Weather Centre and then obtained her post-graduate meteorology certificate from York University.

Outside of work, Wagstaffe enjoys flying and has both her glider's and pilot's license. She enjoys teaching children about weather and science and is part of the Astronuts Kids Space Club. She is a runner and snowboarder, and is passionate about music in all forms and can often be found at a local concert. Follow Johanna (@jwagstaffe) on Twitter ■

Members of the Honor Party

The Honor Party membership includes Sheryl Fisher representing the Squamish Nation. Tonight's celebration is being conducted in Squamish Nation territory. The Honor Party is also composed of Dr. Chief Robert Joseph of Reconciliation Canada, the Mayors of the City of North Vancouver, The District of North Vancouver and the Acting Mayor of the District of West Vancouver. Victor Spence, Founder of The World Peace Tartan Initiative has come from Scotland to mark this important evening. Members are gathered from Summit Negotiations Society and The University of the Fraser Valley, co-sponsors of our time together. All Honor Party members are in attendance to "Witness" the presentation of the World Peace Tartan to Col. Chris Hadfield, to hear Chris deliver his "The Sky is Not the Limit" address, to celebrate the 40th Anniversary of The University of the Fraser Valley and the launch of Summit Negotiations Society.

Honor Party Participants:

- Sheryl Fisher - *Squamish Nation*
- Dr. Chief Robert Joseph - *Reconciliation Canada Ambassador*
- Mayor Darrell Mussatto - *City of North Vancouver*
- Mayor Richard Walton - *District of North Vancouver*
- Councillor Nora Gambioli - *District of West Vancouver*
- Victor Spence - *Founder, The World Peace Tartan Initiative*

- Dr. Ernest Thiessen: *Director Summit Negotiations Society*
- Vanj Thiessen: *Director Summit Negotiations Society*

 On behalf of Squamish Nation and the Coast Salish people, we would like to congratulate Chris Hadfield on his being awarded the World Peace Tartan, the University of the Fraser Valley on its 40th Anniversary and Summit Negotiations Society on its launch. We wish you lifelong success and harmony on your endeavours. My late uncle Percy Paull would always share that we as human beings are just like the different species of trees, living harmoniously in the forest, breathing the same air and growing from the same earth and thriving for many generations. I would like to welcome you to our Coast Salish traditional territory and ask the creator to bless each of you on your journeys through life. O'siem.

3. Chris was _____ years old when he decided to be an astronaut?

Welcome!

The University of the Fraser Valley is pleased to co-sponsor tonight's inspirational event.

Col. Chris Hadfield's compelling story and personal reflection on his experience as the first Canadian astronaut to walk in space has ignited wonder and passion for the kind of education and exploration that leads us not only into space but to a better understanding of our own planet and our responsibility for its future. We congratulate him on receiving the World Peace Tartan this evening, a great honour and symbol of the value of interconnectedness and diversity.

Thank you for sharing this event, part of our celebration of UFV's 40th anniversary and a unique way to commemorate the development of our new program in peace and conflict studies.

Dr. Mark Evered

President and Vice-Chancellor

Greetings from Mayor

Darrell Mussatto

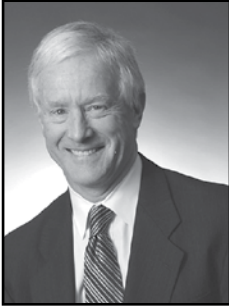

On behalf of the City of North Vancouver, I am pleased to extend a warm welcome to Colonel Chris Hadfield for his presentation of *The Sky is Not the Limit* on April 4, 2014 at Centennial Theatre. Through his innovative use of social media in space and numerous career accomplishments, Col. Hadfield has inspired positive dialogue on science and space exploration around the world.

We look forward to welcoming Col. Hadfield to the City of North Vancouver to share his insights and inspirational message with our community.

Greetings from Mayor Richard Walton District of North Vancouver

It is my great pleasure to welcome Colonel Chris Hadfield to the District of North Vancouver.

As the first Canadian to command the International Space Station, Colonel Hadfield captured our hearts and imaginations with his love of space exploration and his ability to communicate across generations

through music and social media.

He is an inspiration to us all and his visit provides a unique opportunity for our community to learn more about what it takes to become an astronaut.

GREETINGS from the Mayor of West Vancouver

On behalf of Council and the citizens of West Vancouver, I would like to congratulate Colonel Chris Hadfield on his many accomplishments and very successful career. Tonight, Colonel Hadfield will receive the World Peace Tartan, a global symbol of peace and hope. As an astronaut, Colonel Hadfield has been able to see the world from a very different perspective, and we thank him for allowing us to be a part of his journey by sharing that unique vantage point with us.

I would also like to acknowledge and congratulate both sponsoring organizations, the University of the Fraser Valley who celebrates their 40th anniversary tonight and Summit Negotiations, a new non-profit society which provides online negotiation services to non-profits and grassroots organizations.

Yours truly,

Michael Smith, Mayor

Changing the Way the World Negotiates

Congratulations to Chris Hadfield for capturing our imagination while commanding the International Space Station in a way that has inspired us to become better stewards of our planet. As inventors and developers of Smartsettle, the world's premier eNegotiation system, we resonate with Hadfield's call for **peace on earth**. This is also our vision in providing Summit Negotiations Society with a world-wide license to use Smartsettle for non-profit peacemaking purposes, moving people from competition to cooperation in order to help resolve all types of conflicts. We count it a privilege to stand alongside the organizers here in awarding Hadfield with the World Peace Tartan. It is also very fitting that proceeds from this event will contribute towards the launch of Summit Negotiations Society as well as the Peace and Conflict Studies at the University of the Fraser Valley to celebrate their 40th anniversary.

WORLD PEACE TARTAN

The World Peace Tartan was created to promote a global message of peace.

The striking light blue in the design is representative of the presence, hope and potential of the United Nations. Scotland at the heart of this enterprise is represented through the purple and green of the thistle, its national flower. The red and black running through the pattern represents the realities of war and violence with the white conveying peace and light as a counterbalance.

This new tartan illustrates humanity's desire for a peaceful, nonviolent and sustainable future.

Revenues generated from the licensing of the brand, design or products of the World Peace Tartan will be invested in initiatives that build a culture of peace and that alleviate poverty.
